The confusion in regard to the beginning of the era of the Contracts (Seleucid era) which in various countries began in different years — in Palestine 313 or 312 B. C. E. but in Babylonia 311 B. C. E. — was instrumental in making the Babylonian scholars advance the time of the destruction of the Temple one or two years.

By a non-accession counting of Seleucus' antedated reign, a version of A.S. beginning in fall 313 B.C. is possible.
